Wildlife Review - Fisheries Review
U.S. Fish and Wildlife Service
1025 Pennock Place, Suite 212
Fort Collins, Colorado 80524

Fisheries Review is intended to furnish fishery biologists with abstracts of current literature in sport, fi
research, and management.

One volume, consisting of four numbers, is issued each year. Each number contains separate Au
Geographic, Taxonomic, and Subject indexes, and a list of publications screened. Authors who publ
journals not screened for *Fisheries Review*, and who would like their publications included, should s
abstracts to the Editor.

The U.S. Fish and Wildlife Service assumes no responsibility for the accuracy of material from ou
sources, and can only supply copies of articles written and published by the U.S. Fish and Wildlife Se

Fisheries Review

CONTENTS

AQUATIC PLANTS AND THEIR CONTROL..... 1

CULTURE AND PROPAGATION

- General Fish Culture..... 2
- Trout and Salmon Culture..... 5
- Warmwater Culture..... 11
- Mariculture..... 19
- Feeds, Feeding, and Nutrition..... 27
- Transporting Fish..... 34
- Aquariums..... 35
- Miscellaneous Culture Techniques and Equipment..... 36

LIMNOLOGY AND OCEANOGRAPHY

- General..... 40
- Physical..... 40
- Chemical..... 41
- Benthos..... 41
- Plankton..... 42
- Primary Production..... 42

MORPHOLOGY, PHYSIOLOGY, GENETICS AND BEHAVIOR

- Morphology..... 42
- Physiology..... 55
- Genetics, Variation Studies, and Hybridization..... 90
- Behavior..... 99

NATURAL HISTORY

- Life History - General Works..... 111
- Population Studies, Production, Recruitment, etc..... 119
- Spawning Habits and Movements, Fecundity, etc..... 122
- Movements, Seasonal and Depth Distribution, etc..... 125
- Foods/Feeding..... 128
- Age and Growth..... 136
- Geographical Distribution, Fish Surveys, etc..... 141
- Abundance, Factors of; Survival and Mortality..... 147
- Identification, Keys, Classification..... 147

PARASITES AND DISEASES

- General..... 153
- Bacterial..... 158

Protozoan..... 163
Viral..... 166
Other..... 168

POLLUTION AND TOXICOLOGY

Pollution..... 177
Fish Kills..... 189
Toxicology; Bioassays..... 190

RESEARCH AND MANAGEMENT

General..... 203
Administration and Planning..... 207
Habitat Alterations..... 207
Harvest, Creel Census, etc..... 213
Regulations..... 215
Fish Control and Removal..... 216
Marking and Tagging..... 216
Stocking and Introductions..... 218
Fishing Gear and Techniques..... 220
Fishways, Fish Passage Through Dams, etc..... 223
Mathematics, Statistical Methods, and Modeling..... 224
Access..... 234
Lake Management and Research..... 234
River and Stream Management and Research..... 238
Farm Pond and Small Impoundment Management and Research..... 243
Large Impoundment Management and Research..... 244
Estuary Management and Research..... 245
Marine Management and Research..... 248
Utilization of Fishery Products..... 264
Miscellaneous Techniques and Equipment..... 265
Reviews, Bibliographies, etc. 267
Miscellaneous..... 268

AUTHOR INDEX (Blue)..... 269
GEOGRAPHIC INDEX (White)..... 467
SYSTEMATIC INDEX (Blue)..... 511
SUBJECT INDEX (White)..... 807

AVAILABILITY OF REPRINTS AND PUBLICATIONS

Fisheries Review does not distribute any of the papers cited herein, nor can the editor of *Fisheries Review* obtain copies of these papers for anyone. A reprint of an article published in a journal may be available from the author, from the organization with which the author is affiliated, or from the publisher of the journal in which the article appeared. When an author's address is known, it is shown in square brackets following the citation. Addresses of most wildlife organizations can be obtained from the *Conservation Directory*, an annual publication available from the National Wildlife Federation, 1412 16th St., N.W., Washington, D.C. 20036. This directory lists more than 900 agencies and organizations concerned with natural resources use.

Camera-ready copy for this issue of *Fisheries Review* has been generated by computer programs developed by the Data Base Section, U.S. Fish and Wildlife Service, Office of Information Transfer, 1025 Pennock Place, Fort Collins, CO 80524.

U.S. Fish and Wildlife Service
1025 Pennock Place, Suite 212
Fort Collins, Colorado 80524

As the Nation's principal conservation agency, the Department of the Interior has responsibility for most of our nationally owned public lands and natural resources. This includes fostering the wisest use of our land and water resources, protecting our fish and wildlife, preserving the environmental and cultural values of our national parks and historical places, and providing for the enjoyment of life through outdoor recreation. The Department assesses our energy and mineral resources and works to assure that their development is in the best interests of all our people. The Department also has a major responsibility for American Indian reservation communities and for people who live in island territories under U.S. administration.
